

Executive Health Check

Corporate Special

HEALTH CITY
Cayman Islands 

As a hard working executive and busy individual your time is at a premium. You need to be at the top of your game and in the best of health.

Our Executive Health Check is designed to help you identify your risk of future disease and create a personalised program to improve your health and maintain an active lifestyle.

Enjoy customised Health Check packages that consider your health concerns, age, risk factors, medical and family history. Choose from a comprehensive panel of tests to screen for conditions of the heart, liver, kidneys and hormones, as well as radiology options including ultrasounds and X-rays.

The latest in diagnostics technology and screening facilities combined with our highly qualified team of experienced healthcare professionals, means you'll have peace of mind knowing you are doing all you can to take care of your health.
